Desktops come with a The Computer Store 1 year carry-in warranty. The Computer Store does not warranty software such as virus removal or Software support for programs or games purchased from The Computer Store or elsewhere. Also we do not warranty systems or peripherals with physical damage or damage due to neglect. Internet connection problems are the responsibility of the internet provider. We are not responsible for teaching the purchaser how to use the computer or operate the operating system. Systems built using old and new parts built by The Computer Store carry a 90 day warranty. LCD's and peripherals purchased with systems are only warranted if they are still under warranty with the manufacturer.
