

Service Pricing Guide

Mission Statement & Offerings

Thanks for trusting The Computer Store as your small business and personal computer professionals. Our mission is to offer the best support possible, with our state of the art facility and courteous team we will go out of our way to make sure all your needs are met. We offer services that know one else can offer and fix devices at the component level. We can fix computers in-store, onsite or remotely, which ever way you feel comfortable with. Desktops, Laptops, Apples, Tablets, Music Players, Game Consoles and even discs are repaired in store. The Computer Store also recovers lost data from many devices like hard drives and USB drives. We help customers with old school support methods and courteous care that was almost lost in time and is now revived here at The Computer Store.

Samsung Galaxy S3	\$149.99	Upper & Lower Part Installation	\$80.00	<i>Part Prices are estimates and could be more or less. This is a guide for estimation purposes only. Glass replacement prices are the prices as of March 2015 and could be less, call for exact pricing. Common Service pricing is correct as of March 2015 and is subject to change, also we combine and discount for multiple services in a single repair. For example if you have a computer that needs a video reflow but also has virus we combine the prices and give discounts accordingly, the price wouldn't be \$80 plus \$60 it would be the base price of \$80 plus \$40 additional for the cleanup. We believe in fair pricing. Call if you have any questions about pricing.</i>
